

# Homework Outline for Families

## Foundation - Year 6

Dear Parents / Carers,

Please see below an outline of homework expectations for children across the school for your reference.

Homework supports children to recall and retain their learning. The aim is to develop strong reading habits, consolidate key skills, and gradually develop independence. Expectations increase progressively as a child moves across the years in preparation for further study at secondary school.

Students at each year level are asked to read daily for the time period indicated (please note that this doesn't need to be a whole book or chapter just the time indicated)

Teachers will check work and if it is not completed students will complete catch up at a designated time. We value the partnership between home and school so if circumstances prevent homework completion, please communicate with your child's teacher.
